Morris Minors Worldwide

Morris Minors were exported all over the world and assembled in many different countries including Ireland, Holland, Denmark, India, South Africa, Australia and New Zealand. The concept of a World-wide Federation of Morris Minor Clubs was suggested many years ago, and as a result links were established between many of the clubs which existed at the time.

Some clubs are more active than others but the principle of mutual support and the exchange of information has persisted. Both long established clubs and some recently established groups share their experiences and common interest in celebrating the 75th Anniversary of the Morris Minor.

A new group of Morris Minor enthusiasts was established in Italy at the beginning of 2023. At present it is just a collection of like-minded Morris Minor enthusiasts and friends. It is hoped that a club will be formed in the near future.

Thanks to the initiative of Mr. Luca Bardelli, a new community of Italian Morris Minor owners has been created. Luca's efforts in this regard and his enthusiasm for all things Morris Minor was recognized in 2022 at the MMOC National rally when he was awarded the prestigious MMOC International Award.

Luca has been successful in identifying the whereabouts of 38 Morris Minors in Italy and is hopeful that other owners could become part of the Morris Community.

Currently 22 owners of these Morris cars are active, following and attending various activities.
